

Bio-Rad kits:

| Assays                       | Human | Mouse     | Rat       |
|------------------------------|-------|-----------|-----------|
| IL-1alpha                    | ●     | ●         | ●         |
| IL-1beta                     | ●     | ●         | ●         |
| IL-1ra                       | ●     |           |           |
| IL-2                         | ●     | ●         | ●         |
| IL-2Ralpha                   | ●     |           |           |
| IL-3                         | ●     | ●         |           |
| IL-4                         | ●     | ●         | ●         |
| IL-5                         | ●     | ●         |           |
| IL-6                         | ●     | ●         | ●         |
| IL-7                         | ●     |           |           |
| IL-8                         | ●     |           |           |
| IL-9                         | ●     | ●         |           |
| IL-10                        | ●     | ●         | ●         |
| IL-12 (p40)                  | ●     | ●         | see below |
| IL-12 (p70)                  | ●     | ●         | see below |
| IL-13                        | ●     | ●         |           |
| IL-15                        | ●     | ●         |           |
| IL-16                        | ●     |           |           |
| IL-17                        | ●     | ●         |           |
| IL-18 (not as a single-plex) | ●     | ●         |           |
| Basic FGF                    | ●     | ●         |           |
| CTACK                        | ●     |           |           |
| Eotaxin                      | ●     | ●         |           |
| G-CSF                        | ●     | ●         |           |
| GM-CSF                       | ●     | ●         | ●         |
| GRO-alpha                    | ●     |           |           |
| HGF                          | ●     |           |           |
| ICAM-1**                     | ●     |           |           |
| IFN-alpha2                   | ●     |           |           |
| IFN-gamma                    | ●     | ●         | ●         |
| IP-10                        | ●     | see below |           |
| KC                           | ●     | ●         |           |
| LIF                          | ●     | ●         |           |
| MCP-1                        | ●     | ●         |           |
| MCP-3                        | ●     |           |           |
| M-CSF                        | ●     | ●         |           |
| MIF                          | ●     |           |           |
| MIG                          | ●     | ●         |           |
| MIP-1alpha                   | ●     | ●         |           |
| MIP-1beta                    | ●     | ●         |           |
| MIP-2                        | ●     | ●         |           |
| Beta-NGF                     | ●     |           |           |
| PDGF-BB                      | ●     | ●         |           |
| RANTES                       | ●     | ●         |           |
| SCF                          | ●     |           |           |
| SCGF-beta                    | ●     |           |           |
| SDF-1alpha                   | ●     |           |           |
| TNF-alpha                    | ●     | ●         | ●         |
| TNF-beta                     | ●     |           |           |
| TRAIL                        | ●     |           |           |
| VCAM-1**                     | ●     |           |           |
| VEGF                         | ●     | ●         | see below |
